1.3.5 Sphinx ScrollDepth Extension

This extension tracks how far users have scrolled on the page. When a new section is scrolled into view a Google Analytics event is fired. These events can be seen in real time in the Javascript console (Chrome: CTRL+Shift+I OR Options-> More Tools -> Developer Tools).

Don't forget to replace the tracking code snippet with your own. Your tracking code can be found at analytics.google.com under Admin-> Tracking Info-> Tracking Code.

1.3.6 Tracking PDF-downloads

File downloads can be easily tracked with Google Analytics.
